Mpps V12 software 31 v21 07.05.2018 Tim, software version 2.5 has been uploaded, which may make your car misfire. The.exe version is 3912a. As for version 21, it is still in beta, and you can't download it. But I can tell you that it's working with some models. Check with others before installing it.You can always download version 19, and then make your own patch.
