## Infected Mushroom Manipulator VST 2013

Manipulator Torrent Infected Mushroom Manipulator is a vocal processing plugin that emulates vocals by applying filters, harmonics and sound smearing to simulate severe vocal effects. How do I use the Manipulator? Using a neutral, unprocessed voice, open the plugin, go to 'User Settings', then open the 'Manipulator Settings'. A square window will pop up. Click 'Apply Settings' if everything's OK, or click 'Cancel' if you want to adjust the settings. When the plugin is active, go to 'Manipulator Options'. Click 'Modulate', then choose which of the 10 algorithms you want to apply. Open and close the plugin. Repeat steps 1-3 until you are satisfied with the results. How do I change the settings? Using a neutral, unprocessed voice, open the plugin. Click the 'Manipulator Options' tab. A number of options are available: A setting that controls the dynamic range of the audio. Click 'Levels' to open a slider window. Adjust the slider until you get a good balance of attack/decay. A setting that controls the amount of modulation. Click 'Modulation' to open a slider window. Adjust the slider until you are happy with the sound. A setting that controls the degree of clipping. Click 'Clipping' to open a slider window. Adjust the slider until you get a good balance of the normal sound and the voice of the same pitch but at the loudest note. An optional 'Articulation' setting. Click 'Articulation' to open a new section. Click 'Articulation' and select 'Silence' or 'Tremolo' or 'Pitch Fall' and 'Pitch Rise' or 'Pitch Breathing' or 'Voice Stretching' and/or 'Coarse Wav' or 'Fine Wav' depending on your tastes. A setting that controls the size of the window. Click 'Windows' to open a slider window. Adjust the slider until you are happy with the amount of time between the start of the modulation and the end. What can I do with Manipulator? It's not a vocal effects plugin. It's simply a vocal processor. Manipulator can be used in conjunction with other processing plugins or by itself to transform a vocal track
