What's New In?

Microsoft Captions Language
Interface Pack (CLIP) is a pack of 3
different technologies: (1) a free

language access solution, CLIP is multi-language, accessible to all, and is supported with Windows operating system, (2) a taskbar tooltip language translation solution, CLIP, with the right-click menu in your own native language, get the same result as the main menu in your own language, (3) a language education tool, CLIP, it's a pedagogical tool to learn a new language in addition to the built-in command line CMD.exe. What is the main feature? □ The CLIP native language menu is completely compatible with the ones in the original language □ It is the best multi-language solutions available on the market, with an even better performance □ It is also available for both 32-bit and 64-bit operating system □ The taskbar menu is translated in the language of your operating system, and in the user's language □ It can be enabled easily,

even if the user doesn't know a word of the language □ It can be easily integrated into your programs (Office, VisualStudio, OfficeSuite, Internet Explorer, Games, etc.) CLIP is also fully customizable, each menu can be translated to your own native language □ Multiple languages and multi-languages are available □ CLIP speaks for all your needs: learning languages, traveling, business, families and education, etc. □ CLIP is the first Microsoft solution capable of interpreting a language without special expertise from a user In addition to what the CLIP has achieved, Microsoft and CLIP will keep working to develop the many functions of the program as a package □ New languages will be added as soon as possible □ The technology and programs will keep improving and be extended as and when required Installation 1,

download, unzip and install the available languages 2, CLIP native languages menu will appear in the taskbar menu 3, CLIP main menus will appear in the main menu Translation CLIP is fully compatible with the original language It's like copy and paste, CLIP is the result of the collaboration between Microsoft and local communities All CLIP menus are available in your native language Translation is integrated with menus Feature: CLIP is the software program developed by the Microsoft
