I still use Photoshop Elements for the occasional image editing task. Especially when I need quick tweaking, exposure, or effect on images, but I don't use it for most of my normal processing. The web designers and developers that I work with usually don't use Photoshop Elements because of the many limitations of the software and the lack of features that the software doesn't have, such as the Design Center. You don't need to own Photoshop to edit images. If you do own Photoshop and Photoshop Elements, you can edit images on both programs. Read, Shop & Share Everything on Wheels Shop Shop Box Assembled Box By Sarah McKee If I owned a grocery store, I think I'd buy a box. I can't say why, but I really love the visual style and the finish of these chrome-plated boxes. I love the dark blue dye job on these boxes. I wonder how long it will take for this style to be copied. Our grocery store in Flagstaff bought them, so I'm sure the next one will follow. Bulbs By Sarah McKee I couldn't get a good photo of these, they were too dim. I was afraid they'd come up crooked, but they were perfect. I love the designer name stickers. Art By Sarah McKee I saw these frames at a garage sale and we bought the three highest ones. We hang them in the hallway. They're great for tchotchkes and art. Hammock By Sarah McKee This is my first hammock. Ever. I was worried about losing the peace and quiet of the hammock, but with three kids, I really can enjoy it. It wasn't easy to get set up, but once we did, it was really nice to relax. The Twiggy Wrap By Sarah McKee I found this tutorial online. I liked the way the tips turned out. They're perfect for wrapping gifts. This is my first one, but I think I'm going to make some more for Christmas. The best thing about this gift wrapping is you don't have to cut strips. There are wide ribbon ends to tie the bow. I love this! Of course, I love the twiggy wrap, but the boxed ends are really neat. Next time I go to the craft store, I might have to buy some glue just so I can try this. :) I really like these! The twiggy wraps are a great idea and the painted boxes are sooo cute! I think the boxes would be great with smaller pics too, like the ant farm. I love how the twiggy wraps aren't as high on the pics and that it gives the same look as the twiggy wraps, but in a smaller package. These are adorable! I'm going to have to post them in my Etsy store, it's so hard to think
