SheepArcade search results for Download Reflexive Arcade Games.. Strike Ball 3. Experience intense brick-busting action with this amazing challenge. Strike Ball 3. 2: across the globe as you help Emily in a series of free games to solve puzzles and decipher a set of clues to move.. reflexive arcade games crack.. Reflexive arcade games actions! Recently, we released the latest version of Reflexive's innovative racing game Reflex Racer Racing. We're excited to announce that we're launching this game on Steam, and to celebrate, we're offering a huge sale on Reflex Racer from November 19th through December 1st. All Reflex Racer's DLC packs, which include more than 50 different cars and 40 tracks, will be 50% off! Our friends at the Pathe Exchange are celebrating their 10th anniversary by giving away Reflex Racer. The best thing to do is come to SheepArcade.com for a chance to enter to win a Reflex Racer key for free! Here's a video overview of the game: A couple of notes about Reflex Racer: - Reflex Racer is a single-player, two-wheel racing game. - You don't need any steering wheel, pedals, or any other input device. - The "virtual" track is reactive. Your vehicle will react to obstacles by doing wheelies and spins! - The game features a high level of customization, including changing your car's wheels, fuel, oil, and many more options. - All DLC is available for the game and can be purchased with real money (including the 40 track pack, which will be at full price). In addition to this great offer, we're also having a sale on Reflex Racer! For those who have already purchased Reflex Racer, you can get an extra 25% off through the end of the sale! Our friends at Reflections have also been working on their project, and they're excited to be able to release Reflex Racer in early 2015. Watch this space for more information. We're still working on Reflex Racer, but we hope to be able to release it early next year. That's it for now! Stay tuned for more news and developments from Sheep Arcade! If you're a developer and would
